

HEALTH CARE OF, BY, AND FOR THE PEOPLE

MEET A DOCTOR who goes beyond the exam room to treat the diseased medical system . . .

PAMELA WIBLE, M.D., pioneered the community-designed ideal medical practice. A nationally recognized innovator in patient-centered care with two decades of experience in hospitals and clinics across America, Dr. Wible is uniquely qualified to heal health care: She is the first physician to inspire ordinary citizens to define ideal care and then design their own clinic.

A NATURAL PERFORMER with open invitations nationwide, Dr. Wible inspires patients and physicians to reinvent health care *together!* Her medical keynotes, dubbed "gospel revivals," move physicians to tears and to action. Now neighborhood clinics are revitalizing communities all across the nation. Wible's model has been highlighted in national medical journals including the Journal of Family Practice, Physicians Practice, and the American Medical News. Diagnosed as a celebrity by physicians, she now takes her message to America.

A CAPTIVATING PERSONAL STORY

PAMELA WIBLE, M.D., is a family physician born into a family of physicians, comedians, and entertainers. She's related to the Three Stooges! Raised in a morgue, she spent her childhood peeking in on autopsies and examining the human remains stockpiled all over her house. Introduced as a doctor-in-training by her dad, she was set loose on inmates, heroin addicts, and cadavers while most girls her age were playing with Barbies. Her parents warned her not to pursue medicine, but she followed her heart only to discover: *To heal her patients, she had to first heal her profession.*

7 STORY IDEAS:

HEALTH CARE OF, BY, AND FOR THE PEOPLE

A small town creates the clinic of their dreams.
Meet the patients and physician who made history.

MEDICAL MAVERICKS

House calls, 24/7 access, leisurely appointments, even door prizes for healthy behavior. Meet five fearless physicians from across America who leave assembly-line medicine to heal themselves, their patients, and the health care system.

REALITY MD

A docudrama on real-life docs jumping off the treadmill to save their communities.

FUN PHYSICALS? PARTNER PAPS?

Turn your next doctor's visit into a party.
Real patients reveal all in this hilarious show.

DEPRESSED DOCTORS, SUICIDAL MED STUDENTS

Is health care killing your doctor?
Save yourself, your doctor, and the health care system!
A must-see special showcasing survivors.

IS YOUR DOCTOR IGNORING YOU?

2 out of 3 patients are "tuned out" by fatigued physicians.
Empathy burnout. It's a medical epidemic.
Learn how to protect yourself and rescue your doctor.
